

KOMORI GL 840P H-UV

Referenca izdelka:	2011
Proizvajalec:	Komori
Model:	GL 840P H-UV
Leto proizvodnje:	2012
Št. odtisov / Delovne ure:	cca. 158 mio.
Cena:	po povpraševanju

Tehnična specifikacija

- H-UV (2 lamp system, after PU 4 and PU 8)
- Perfecting 8/0, 4/4
- PDC-SX spectrophotometric and interface pre-inking
- PQC-S off-press control console
- KHS-AI High Performance Inking System
- AMR Automatic Make Ready
- Ink Mate Technotrans
- Advanced interface pre-inking system
- KMS IV Komori Management System
- KID Komori Information Display "Wallscreen"
- Interdeck ready Unit after PU 3 and PU 7
- Inktemperature control
- Cool- and circulation
- Auto Ink roller wash
- Auto Blanket Wash
- Auto Impression cylinder washup
- Air vacuum front and side lay
- Automatic preset papersize
- Automatic preset paperthickness
- Automatic side lay adjustment
- Suction feeder belt, vacuum feeder board
- Ultrasonic double sheet control
- Anti-fan out regulation remote control
- Steelplate in the feeder
- Steelplate in the delivery
- Chrome plated plate cylinders
- Chrome plated blanket cylinders
- Chrome plated impression cylinders
- Antistatic feeder
- Side blowers in the feeder
- Electro-mechanic double sheet control
- Decurler
- Feeder and delivery preset
- Skeleton transfer Cylinders
- Beta F
- Beta Technotrans
- Alco smart

Tehnični detajli:

- Maximum sheetsize: 720 x 1030 mm
- Minimum sheetsize: 360 x 520 mm
- Maximum mechanical speed: 15.000 sheets/hour
- Thickness paper range: 0,04 - 0,6 mm
